

ADVANTAGES

- Complete interchangeable diffusion front plates range
- Robust fully welded construction for durable reliability and tightness
- High corrosion protection against decontamination agents
- Toolless filter clamping 100% secured and immediate
- Built-in filter scaling option
- Quick front plate locking for immediate access to the filter

|                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
